Age-Friendly Ecosystem Collaboration Workshop Network Mapping Worksheet

Take some time to think about all the partners with whom you currently engage (institutions, organizations, health centers, etc.). Record these in the left column. There is no maximum, minimum or specific number you are aiming for. Next, consider the resources they bring to the table as part of your network. These may differ from the primary focus of the partner, and they may differ from the partner's support in other situations. List as many as come to mind, then discuss in terms of the brainstorm activity.

PARTNER	SUPPORT
Example: Local AARP Chapter	*Example: Improving built environment*

Network Mapping

PARTNER	SUPPORT

Thank you Aaron Guest of ASU for help develping this worksheet.
