

## Module 3 Competence Check

**Congratulations on completing Module 3! You should be able to define Coordinating Supports and Services and identify a few strategies to pursue and adopt. This final exercise will provide you with an opportunity to reflect on the content you learned and consider how you can apply it to your work.**

Question	Response
Define and provide an example of Coordinating in your community.	
Identify at least three strategies from the Module 3 guide (or others you have identified) to demonstrate Coordinating Supports and Services in your jurisdiction. Consider examples that may apply directly to your work.	
Describe how you would operationalize equity within the strategies you identified. Has this changed since you thought about it in Module 1 and Module 2? If so how?	
What opportunities exist to implement activities in your jurisdiction that demonstrate Coordinating? What challenges exist?	

<p><b>List the potential partners with whom you might work with to Coordinate services. Are these relationships new, existing relationships, or a mix of both? What factors related to this relationship might impede healthy aging work?</b></p>	
---	--

The prompts below provide you with the opportunity to reflect further on the Coordinating module and share your thoughts about implementing the activities you have reviewed.

Prompt	Reflection
<p><b>What approaches and strategies related to Coordinating would you like to learn more about? (Please contact the AFPHS team to learn more at <a href="mailto:afphs@tfah.org">afphs@tfah.org</a>.)</b></p>	
<p><b>Describe activities related to Coordinating that you think will be more challenging. What are some ways you will approach these challenges?</b></p>	

Reflecting on the module overall, please describe what you found most interesting?
